

Disconnect to Reconnect

APRIL HUIZENGA

Featuring photographs of the artist's time in Summer 2016
at Esperanza on Vancouver Island

Esperanza is a place of healing.

*It takes time to get there, but when you arrive,
you are enveloped by awe-inspiring beauty.*

*The island is surrounded by inescapable water,
forcing each to take time to examine their own reflection.*

*Working and resting within a community,
one comes to understand how they fit within the larger puzzle.*

*New memories and a deeper connection,
like phosphorescence illuminating a vast dark space,
grow brighter together.*

Everyone needs an Esperanza.

Come to refuel and to let go.
